## COURSE PROSPECTIVE

Cyber law is a major necessity in the country with the growth and advancement of technology. Cyber law is not only governing the cyberspace but has captured the entire world. Right from privacy of your personal data stored online to your social media posts to your demat share trading account. Every humankind using digital technologies such as apps, email, social media, smartphones, online banking, online shopping etc is counterfeited by cyber laws. Internet being vulnerable to attack crimes like hacking, cyber terrorism, child pornography are increasing and abuse has left many unanswered questions in the mind of people. The users of cyberspace are increasing manifold which in turn leads to the necessity of the law governing these users.

”

## COURSE OBJECTIVES

Capsule course on Cyber Laws gives you an introduction into cyber world and laws that govern it. Everyone must have an understanding of the rights and responsibilities of being on internet.

This capsule course will be interactive and going to benefit all in the terms of professional growth.
